The usage of the Flight Simulator for training of pilots B737-300
(Ref. No.: 854-IL/00 dated July 10, 2000 in Czech language)

Dear Mr. Vice-president,

With reference to your request regarding the consideration of the B737-400/500 Flight Simulator usage for all types of B737-300 pilots training, we are pleased to let you know as follows:

- 1) Having considered all the aspects and results of the tests on B737-400/500 Flight Simulator, the CAA CZ will acknowledge all types of training and checks on B737-400/500 Flight Simulator **even for B737-300 version.**
- 2) We recommend that the companies operating only B737-300 were made familiar with the Flight Simulator qualities/parameters and expressed their approval with the training.

Yours sincerely

František VLCEK
Director
