

OUR COMPANY

Czech Aviation Training Centre (www.CATC.cz) is a mid-size independent training organization, located at Václav Havel International Airport in Prague, one of the world's most popular cities. The Training Centre has a long history in training airline pilots and other aviation personnel dating back to the very beginning of the aviation industry. In 2012, the Air Navigation Services of the Czech Republic acquired our company. CATC continues in the aviation training tradition that Czechoslovak Airlines started almost a hundred years ago and confirms its leadership across Central Europe in this field. Czech Aviation Training Centre is responsible for the training of airline transport professionals from the beginning of their journey to the completion and maintaining their qualifications valid. At the same time, CATC is active in finding suitable placements for its successful graduates. We provide flexibility and an individual approach towards the needs of every single client. Our students participate in a large variety of training programs offered by CATC and benefit from the fact that a majority of CATC flight instructors are active airline pilots with daily practice. CATC offers various services to other professionals in the airline industry as well, such as technical staff, cabin crew members, ground handling staff, shippers, etc.

APPROVED TRAINING ORGANIZATION CERTIFICATES

Czech Aviation Training Centre is recognized by key national and international authorities including European Union Aviation Safety Agency (EASA), International Civil Aviation Organisation (ICAO) and International Air Transport Association (IATA), holding a variety of certificates that are continuously monitored, renewed and updated in accordance with current aviation industry regulations and quality standards. All courses are in compliance with respective regulations.
